NOTE: Many of www.pennparts.com schematics include changes that were either made by Penn, or errors found and corrected by our parts dept.

SBT VER 062009

Penn changed the design on the reel. They redesigned the Right Side Bearing (handle side) and modified the Right Side Plate and the Spool to accommodate the design.

They also change the Dog Bridge and Dogs as well as the Main and Pinion Gears.

TO DETERMINE WHICH DESIGN YOU HAVE

Measure the left side spool ball bearing or the right side plate bearing (they are the same).

The NEWER 26N-25 Ball Bearing measures: 8MM I.D. x 20MM O.D.

If your bearing matches this you have the newer design already installed on your reel.

The OLDER 26-25 Bearing measures: 8MM I.D. x 18MM O.D.

If your bearing matches this you have the older design.

****IMPORTANT If you need to change out from the OLDER spool

you will need other parts.

NEW SYSTEM:

1	1N-25	RIGHT SIDE PLATE
3	3N-25	DOG BRIDGE (2 REQ.)
5	5P-25	MAIN GEAR
13	13P-25	PINION GEAR
15	15N-25	DOG (2 REQ.)
26	26N-25	BALL BEARING F/PLATE DRIVE
26A	26N-25	BALL BEARING F/L.S. SPOOL
29	29LN-25	SPOOL
