NOTE: Many of www.pennparts.com schematics include changes that were either made by Penn, or errors found and corrected by our parts dept.  
SBT Ver. 112809

### Design Change Notes:

The original 231-8000SV crosswind gear had a small hole to fit on the housing.  
The newer setup uses 231-8000CV w/larger hole that sits the 231A-8000CV bearing

### SERVICE NOTES: *Caution!*

When removing PINION SHAFT and CLUTCH RETAINER inner collar. The roller bearings do not stay put in the plastic bearing case without assistance.

Careful not to loose the bearings! If one drops reinstall and pack with Penn blue grease to hold in place until parts are reassembled.

~~No bail arm bushings - molded to housing

~~45A-8000SV left side rear cap is affixed to 45-8000SV housing cover with contact cement.

8A 8A-8000CV MAIN GEAR SHIM  
Early run reels had extra shims
